Jing Han

Ph.D. Student in Economics, The Chinese University of Hong Kong (CUHK)
Hong Kong SAR · (+852) 5229 8372 · 1155179329@link.cuhk.edu.hk

Research Profile

Ph.D. student in Economics studying urban economics, consumer mobility, digital platforms, and international trade. My research combines empirical analysis with spatial economic modeling to understand how consumer movement and spatial frictions shape economic activity across locations.

Research Interests

Urban Economics; Consumer Mobility; Digital Economics; International Trade

Education

The Chinese University of Hong Kong 2022–
Ph.D. in Economics; Advisor: Zheng (Michael) Song; Hong Kong PhD Fellowship

Fudan University 2019–2022
M.S. in World Economics; Advisor: Zhiyuan Li

Fudan University 2015–2019
B.S. in International Economics and Trade; Second major in English Literature and Translation

University of Strasbourg 2018
Exchange Student

Research Portfolio

Job Market Paper

- **When Consumers Move: The Tradability of Local Consumption**. *Job Market Paper; Preliminary Draft*.
  Using anonymized transaction data that follow Hong Kong consumers across Hong Kong and mainland China, I document systematic differences in cross-border market entry, destination choice, consumption breadth, and the composition of portable and place-based spending across expenditure levels and distance. I develop a spatial model of cross-border consumption that integrates nonhomothetic demand, consumer mobility, and spatial access costs, linking passenger connectivity to consumer welfare and the spatial distribution of urban demand.

Digital Platforms, International Trade, and Technological Change

- **Physical Connectivity, Digital Payments, and Cross-Border Consumption** (with Xijie Gao). *Under review*.
- **Trade Barriers as Risks to Low-Carbon Technology Innovation** (with Donghui Yu and Baihe Gu). *R&R at Research Policy*.

Publications

- **Migration Dynamics and Reproductive Choices: Evidence from China** (with Zeyang Bian). *Economic Analysis and Policy*, accepted, 2026.
- **The Role of Trade Protectionism and Local Industry Support Policies in Low-Carbon Technologies Trade** (with Donghui Yu and Baihe Gu). *Energy Policy*, 2026.

Policy Research and Public Engagement

- **Hong Kong Travelers in Mainland China: Scale, Destinations, and Expenditure Patterns** (with Xijie Gao and Zheng (Michael) Song), 2025.
  covered by RTHK, HKET, Ming Pao, Xinhua News Agency, People's Daily Online, Yahoo Finance, and other regional media.

Research, Industry, and Consulting Experience

Ant Research Institute, Ant Group Jun.–Sep. 2024
Visiting Researcher; industry-based economic research in Hong Kong

Luohan Academy, Alibaba Group Oct. 2021–Jul. 2022
Research Assistant; digital-economy research environment

UNICEF South-South Cooperation Feb. 2021–Mar. 2022
Research Assistant; international policy research

Bain & Company, Shanghai May 2018–May 2019
Business Analyst Intern

School of Economics, Fudan University Jun.–Jul. 2018
Research Assistant, Shanghai Free Trade Zone Project

Roland Berger, Shanghai Jun.–Aug. 2017
Business Intern

Selected Awards

Hong Kong PhD Fellowship, Research Grants Council of Hong Kong	2022–2026
First Prize, Ant Group Digital Leaders Program	2023
Outstanding Graduate, Fudan University	2022
Rongchang Advanced Scholar, Shanghai Rongchang Public Welfare Foundation	2022
Outstanding Graduate Award, Fudan University	2020
University Scholarship, Fudan University	2015–2019

Selected Conferences and Presentations

CUHK Summer School of Asia in the Global Economy	2026
Ronald Coase Institute Workshop on Institutional Analysis	2025
CUHK Economics Alumni Academic Conference	2025
CUHK–Tsinghua Joint Research Center for Chinese Economy, Macroeconomics Workshop	2024
Journal of International Economics Summer School, University of Oxford	2024
21st Seminar of Chinese Women Economists, Wuhan University	2024
5th Frontiers of Labor Economics Forum, Jinan University	2024
Ant Group Digital Economy Workshop	2023

Technical Skills and Languages

Programming and analysis: Python, R, SQL, Stata, MATLAB, and ArcGIS.
Research workflow: Large-scale data analysis, econometrics, spatial economic modeling, data visualization, and LaTeX.
Additional qualification: Passed Level II of the CFA Program.
Languages: Mandarin (native), English (fluent), and Cantonese (conversational).
Professional activity: Alumna of the Ronald Coase Institute.
